ndipreneur MATCH

HAVE FUNDED SUPPORTS AND NOT SURE WHAT HAPPENS NEXT?

We bring the funding, support needs and provider search together.

Tell us what's happening. Our team can review your documentation, work through the support pathway and facilitate services with providers we know and trust.

You can come to us when...

- You've just received funding and don't know where to begin.
- You know what support you need but can't find the right provider.
- Your current support isn't the right fit.
- You've called around and don't want to keep chasing providers.
- There are too many choices and you don't know who to trust.
- You know what's wrong, but you don't know what the service is called.

YOUR STORY, TOLD ONCE. MATCHED RIGHT.

Your provider search ends here.

ndipreneur MATCH

HOW NDIPRENEUR MATCH WORKS

1 Start with what's happening

Tell us what you need, what's changed, what's not working or what you're trying to achieve.

2 Help us understand the full picture

We can start with a conversation. As we work through it, sharing your plan, funding approval or other relevant documentation helps our team understand what is available and what support pathway may fit.

3 We work through the funding and support need

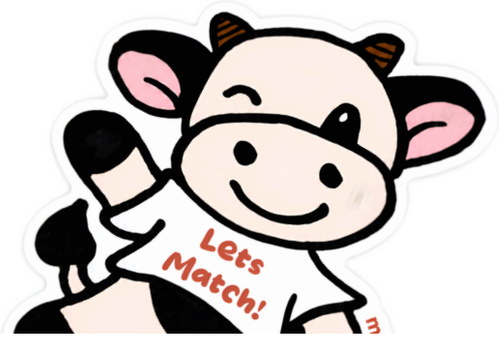

We look at your circumstances, goals, preferences and available funded supports and base it on your situation, rather than a one-size-fits-all service label.

4 You decide what happens next

You stay in control of your supports and the decisions that follow, whether you want us to facilitate your supports or use the advice you've gained to go your own way.

Why use Match?

- Less provider chasing
- More than a directory
- A better focus on fit
- Free forever. Zero fees

YOUR STORY, TOLD ONCE.
MATCHED RIGHT.
