QUESTIONS WORTH ASKING A PROVIDER

A practical guide for participants, families and carers.

Use these questions to help you find a provider that's the right fit for your needs, goals and circumstances.

You should ask:

- What experience do you have with needs like mine?
- How will you work around my preferences and goals?
- How will you involve me in decisions?
- Do you have support workers in my area ready to go?
- Who do I contact if something isn't working?
- When exactly can support start?

As they answer, see whether they listen, explain things clearly and factor your situation. You should come away knowing what support looks like, their ability to facilitate services, and what happens next.

Still not sure?

Ndipreneur Match can help work on your request and facilitate supports start to finish.

YOUR STORY, TOLD ONCE.
MATCHED RIGHT.
